

501A
EGG BREAKER & SEPARATOR

Features

Made of stainless steel for great durability and hygiene which ensures it meet all rules and standards for food processing.

ZENYER 501A egg breaker is designed for breaking eggs and separating egg yolks, egg whites and egg shells with capacity of 3,000 eggs/hour.

ZENYER 501A egg breaker is comprised of a feeding conveyor, the egg breaking station with 5 robotic arms with special knives and an egg yolk & white sepatating trough.

Workers need to only place the eggs onto the feeding conveyor, the conveyor sends eggs to the robotic arms, the arms will catch any rolling eggs and cut the shell with the knives.

The full egg liquids will flow into the trough, where the egg whites will be separated from the egg yolks.

Has a compact structure and requires less storage space, and is equipped with 5 locking casters on the bottom to allow for easier and more controllable movement.

Commodity	Egg breaker & separator
Product code	501A
Model	ZYD-PS-5
Capacity	3,000 eggs/hour
Power	90W, 50HZ
Voltage	220-240V, Single phase
Dimension (L*W*H)	1.38*0.85*1.18 M
Function	Egg breaking, egg yolk separating from egg white
