

**202T  
PLASTIC EGG TRAY WASHER**

**Features**

- ◆ Made of strong stainless steel for great durability and hygiene.
- ◆ This model of tray washer is a 2-channel egg tray washer, each channel has automatic egg tray de-stacking, sanitizing, washing & rinsing, drying and automatic egg tray stacking functions. The machine can reach up to a capacity of 2,400 egg trays/hour.
- ◆ A stack of plastic egg trays can be put into the de-stacking device manually, the device will de-stack the trays automatically, and the main conveyor of the machine will send them to the next process.
- ◆ The machine has 2 water tanks, water tank 1 is for egg tray washing and sanitizing, you can add sanitizer or disinfectant (follow the food authority requirements in your area) into the water tank to ensure the egg tray washing meet all rules and standards.
- ◆ The water that is used to wash trays is recycled and used again, there's a filter above the tank that filter impurities to improve recycled water quality.
- ◆ Plastic egg trays will be rinsed with city water (fresh water). The used water will flow down to water tank 2 and drain out through the drain pipe, it will not be recycled.
- ◆ Water on the plastic egg trays will be swept off by brushes, while the remaining water on the tray will be blown off by the drying fan system. Each channel has 3 drying fans that blow from below the trays, and 3 other drying fans that blow from on top of the trays. The machine has 12 drying fans in total. Each channel has a brush at the drying section to remove excess water from the top of the trays for better drying results and efficiency. Water from the drying section will fall into water tank 2.
- ◆ The washed & dried plastic egg tray will be stacked automatically at the end of the machine, which greatly saves your time.
- ◆ The machine has a control panel with a color touch screen and physical buttons, all the functions can be controlled through the buttons on the control panel.

Model	ZYX-DT-2400
Product code	202T
Capacity	Up to 2400 egg trays/hour
Speed	Adjustable
Power	33.54 KW (excluded air compressor)
Voltage	380V, 50HZ, 3-phase
People	One
Dimension (L*W*H)	7.1*1.7*1.76 M
Net weight	1000 kg
Gross weight	1400 kg
Function	Automatic egg tray de-stacking, sanitizing, washing & rinsing, drying and automatic egg tray stacking

\* Net weight and gross weight are for your reference only.
