

203B EGG WASHER

Features

Option:

- ◆ Made of high quality stainless steel for great durability and hygiene.
- ◆ Suitable for pre-washing before separating of chicken eggs, or cleaning and drying for duck eggs or preserved eggs.
- ◆ Includes water bath with double line loading, washing and drying with a capacity of 20,000 eggs/hour. It can also have the optional candling function and optional manual collection conveyor.
- ◆ Pour the whole tray or box of eggs into a water bath, the eggs will be transported into the washing system via the conveyor. This loading method not only saves time but also minimizes cracked shells by using buoyancy. Furthermore, eggs are also easier to wash after running through a water bath.
- ◆ The eggs will be cleaned by brushes with warm water (the price doesn't include a water heater, consult our representatives if needed).
- ◆ Can be connected with the ZENYER 106A egg grader main machine to assemble a 303B duck egg processing line, alternatively, connect with the 500 egg centrifuge to assemble a liquid egg processing line with a capacity of 20,000 eggs/hour.

Model	ZYX-YS2-3-(P)
Product code	203B
Capacity	20,000 eggs/hour
Power	21.75 KW, 50 HZ
Voltage*	380V-415V,3-phase
Dimension (L*W*H)	12.3*2.3*1.1 M
Net weight	1010 kg
Gross weight	1440 kg
Function	Water bath with double line loading, washing, drying, and optional candling, manual collection conveyor.
