

**501B**  
**EGG BREAKER & SEPARATOR**

**Features**

- ◆ Made of strong stainless steel for great durability and hygiene that meets egg processing safety requirements.
- ◆ Is designed to break eggs and separate egg yolks and whites with a maximum capacity of 8,000 eggs/hour.
- ◆ Ideally, connect the Zenyer 605A accumulator with the 501B egg separator. With the accumulator, 30 eggs can be loaded at a time on the accumulator through the Zenyer 602 vacuum egg lifter, the 605A accumulator will direct 6 lines of eggs into 1 line and transfer the eggs onto the single conveyor of the 501B egg separator, making egg loading easier and more efficient.
- ◆ The accumulator has a candling booth on it, allowing the user to check for any cracked, dirty or otherwise unqualified eggs through LED lights and pick them out manually, the candling booth includes a candling cover and mirror to enforce the candling results.
- ◆ It can be used independently, or it can be attached to another machine such as an egg washer for a more productive assembly line with a capacity of 8,000 eggs/hour.
- ◆ Can be used by large scale enterprises such as egg farms, bakeries, restaurant suppliers and more.

Product code	501B
Model	ZYD-PS-18
Capacity	8,000 eggs/hour
Power	400W, 50HZ
Voltage*	220-240V, Single phase
Dimension (L*W*H)	3.0*1.16*1.4 M
Net weight	400KG
Gross weight	670KG
Function	Egg breaking & separating and optional accumulator for egg loading
