

615
AUTOMATIC EGG LOADER

Features

- ◆ The Zenyer 615 automatic egg loader includes a stack tray loading conveyor (conveyor 1), a rotating plate, 2 lifter heads (lifter head 1 and lifter head 2), a single tray conveyor (conveyor 2) and an empty tray stacker as well.
- ◆ You can load stacks of egg trays (no more than 6 trays per stack) on conveyor 1 manually, the conveyor will transfer the egg tray under lifter head 1, then head 1 sucks the whole tray of eggs (including the tray itself) and transfers them onto conveyor 2.
- ◆ When the 30-eggs tray arrives under lifter head 2, head 2 will suck 30 eggs up from the tray and load the eggs onto the roller of egg grader.
- ◆ The empty tray will be stacked automatically at the end of conveyor 2 where you are able to manually remove the stacks of empty trays.
- ◆ Equipped with a control panel with a color touchscreen and physical buttons.
- ◆ It has a self-diagnosis system, which diagnoses any malfunctions that may occur.
- ◆ The ZENYER 615 automatic egg loader is specially designed to pair with egg grader which makes egg loading easier and more efficient.

Model	ZYS-ZK-J30
Product code	615
Power	7.43 KW, 50HZ
Voltage	380V-415V, 3-phase
Dimension (L* W* H)	4.48*2.33*2M
Net weight	640 kg
Gross weight	900 kg
Function	Stacks of tray loading, rotating plate synchronized positioning, single tray conveying, automatic egg loading and empty tray stacking.
