

714A EGG FARM PACKER

Features

Option:

- ◆ Designed to connect to a rod conveyor leading from chicken shed, the eggs from the chicken shed flow directly to the accumulator of the farm packer through the rod conveyor.
- ◆ Includes accumulating, head turning, candling, automatic packing, counting, off-pack table, can also come with optional UV sterilizing and dust brushing.
- ◆ This model of machine is equipped with 2 automatic egg packers which pack eggs into 5*6 egg trays automatically with a capacity of 60,000 eggs/hour.
- ◆ Head turning makes sure the eggs are perfectly orientated with the bigger head (air chamber) on top for longer storage before getting packed.
- ◆ The optional UV sterilization and dust brushing can help ensure the eggs meet all rules and standards for maximum food security.
- ◆ Empty trays needs to be loaded onto the empty tray conveyor manually, the conveyor will transport the cartons/trays to where the eggs will drop from.
- ◆ It has a counting function, allowing you to check how many eggs have been packed.
- ◆ It does NOT have a grading function.

Model	FBD170
Product code	714A
Capacity	60,000 eggs/hour
Power	5.04KW
Voltage*	380V,50HZ,3-phase
Dimension (L*W*H)	9.47*5.82*2 M
Net weight	3500KG
Gross weight	5190KG
Function	Accumulator, automatic head turning, candling, automatic packing (for 5*6 tray only) and counting. optional UV sterilizing and dust brushing
